

Still conducting exams on paper?

CENTUM
EXAM APP FOR WEB
AND MOBILE

Centum allows organizations & educational institutions to conduct & monitor exams/tests online via mobile phone or PC.

 Saves Time

 Reduces Cost

 Simple to Use

From setting question papers, printing, distributing, to evaluating and tabulating the answers, maintaining records of student grades, traditional paper based exams and tests can be costly and difficult to manage.

With Centum, you can simply upload your questions to the web admin panel and allow candidates to take the exam on their smartphones, desktop computers or laptops.

Results can be viewed instantly on their phone or via website at the end of the exam. Candidates can also view their schedule, review performance of previous tests, update their passwords.

Admin can create exams, load questions, review performance, and send push notifications to candidates, via web based admin panel (Screen shots below)
